

Main objective of the project

ResilientES project aims to revitalize non-urban areas within the SUDOE region using the Social Economy as a driver of socioeconomic development, based on endogenous resources and collaboration between local stakeholders in order to generate employment, guarantee access to services and establish population.

Main results

- SUDOE transnational strategy to transform the Social and Solidarity Economy into a driver of sustainable socioeconomic growth in rural and inland areas.
- Catalog of innovative measures to promote the development of non-urban areas under the scope of the Social Economy.
